Assessment Resources and Support

Currently available:

1. IAS Assessment website—in particular case studies, examples of rubrics, assessment guide, program review requirements.

2. IAS staff can review plans and consult on methodology.

3. Graduate student data support (case by case basis).

4. Program Review query system
   http://www.web.virginia.edu/iaas/program_review/prquery.htm

5. A small-grants program to support program assessment.

In planning stage:

6. Identification and pilot-testing of software that facilitates both grading and assessment. One package being pilot-tested is Waypoint, which uses on-line, interactive rubrics to provide feedback to students and allow faculty to collect and analyze assessment data. Learn more about the product by going to the “Waypoint” collab site. Log in:
